### Adverse Weather Procedure

- ❖ Parents are able to check school closures due to adverse weather conditions on Flintshire county council's website <http://www.flintshire.gov.uk/schoolclosures>. or by listening to their local radio stations who will have also checked the website direct for the latest list of school closures and then they can broadcast the information accordingly and also place a link on their own website to Flintshire County Council's relevant webpage
- ❖ This procedure will also automatically update the Council's Twitter feed @flintshirecc (<http://www.twitter.com/flintshirecc>) to help provide another channel for notification of school closures.
- ❖ There is also an RSS Feed available to keep instantly updated about school closures. The address is: <http://www.flintshire.gov.uk/dominoimgs/webcont/emsdata.nsf/feed.xml>.
- ❖ Another benefit of having the information for all Flintshire's closed schools in one source is for those parents who have siblings attending different schools i.e. primary, secondary and special. This will save time from having to check different sources.
- ❖ Flintshire County Council is also expected to hold information centrally regarding emergency closure of Flintshire schools in relation to requests from the Welsh Assembly Government and Freedom of Information requests. This new procedure allows Flintshire County Council to run reports from the system centrally.
  
- ❖ You are still welcome to phone school to see if we are open as a member of staff is usually able to make it into school.

Yours sincerely / Yr eiddoch yn gywir

Janet Meaden, Headteacher
